

## LC300-21 Column Actuator

### General Features:

- Voltage of motor: 24VDC
  - Maximum load( push): 3000N
  - Maximum speed: 40mm/s
  - Min Mounting Dimension: Stroke+100mm
  - Built-in end stop switches(not adjustable)
  - Stroke length: 100-500mm
  - Color: Silvery white
  - Protection class: IPX4
  - Duty cycle : 10% or 2 min.  
continuous use followed by 18 min. not in use
  - Flexible front fixture
- 
- Position signal: hall sensors
  - Voltage: 1.12VDC  
2.36VDC
