

FD1 Linear Actuator

General Features:

- Voltage of motor: 24VDC
- Maximum load(push): 6000N
- Maximum load(pull): 4000N
- Maximum speed: 42mm/s
- Min Mounting Dimension: Stroke+160 and stroke+175 with piston rod eye
- Built-in end stop switches(not adjustable)
- Color: Black Or Grey
- Protection class: IPX4
- Duty cycle : 10% or 2 min. continuous use followed by 18 min. not in use
- Flexible front fixture
- IEC60601-1, ES60601-1

Load And Speed
